Synagogue of Satan Author and Tour visit Indianapolis

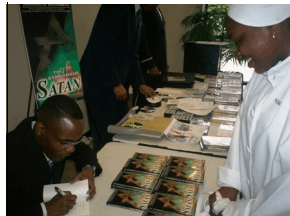

After a wonderful weekend in Chicago, Illinois in which the members of the Nation of Islam celebrated Saviours' Day 2006, the spirit was still high on March 12th in Indianapolis, Indiana where TEI director Ashahed M. Muhammad conducted a lecture and book signing as a guest of Minister Nuri Muhammad, state and district director of the Nation of Islam.

Co-sponsored by the Respect for Life Booksellers, Ashahed dealt with his thoughts in writing the book as well as touching on many of the topics contained within. He later answered more detailed questions for the attendees.

A key point made was that falsehood has been spread in America for so long, that when truth is told, it instantly becomes controversial and those who dare to tell truth are immediately hated and castigated by some while at the same time admired and loved by others.

The message delivered by Mr. Muhammad will be available on DVD and CD.

Contact the TEI for more information on how to get your copy of the book.

Thousands in Chicago Hear Farrakhan Deliver Message of Truth

Saviours' Day is always the crowning event of Black History Month, and this year was no exception.

Many activists, spiritual and political leaders from all ideological locations of the Black

liberation struggle come together in Chicago to receive guidance and instructions for the upcoming year.

After delivering a spellbinding message to nearly 20,000 listeners at the United Center in Chicago, IL, Minister Farrakhan was again the victim of the predictable disinformation machine of the Anti-Defamation League of B'nai B'rith. They went to work immediately condemning Farrakhan as a bigot and anti-Semite.

The TEI would like to point out the following:

- *Tickets for Minister Farrakhan's speech were sold in the amounts of \$20, \$50 and \$100 a seat. Do you think 20,000 people would spend money to hear a bigot and an anti-Semite?*

The predictable response by the ADL shows us more about the paternal attitude of Zionist thought controllers who evidently think that the people who come to hear Minister Farrakhan are mindless drones who should alternatively, look to the Zionist lobby for guidance and direction.

Don't be one of those who allow others to tell you what to think. Get the lecture for yourself and be the judge.

It can be ordered by calling the Final Call Incorporated toll free at 1.866.602.1230 or order online at <http://store.finalcall.com>.

One of the highlights of the weekend were words spoken by Atty. Malik Zulu Shabazz, National

Chairman of the New Black Panther Party (NBPP) as he declared solidarity with the Nation of Islam and vowed to protect Minister Farrakhan with his life.

This was a historic moment in our struggle as it was the first time that a Black Panther had spoken as a part of Saviours' Day 2006.

Minister Farrakhan's lecture titled "Birth of A Nation" was followed with an equally passionate and soul stirring [Part 2](#) delivered from the National Headquarters of the Nation of Islam. Both of these messages must be added to your collection and can be obtained from the locations listed below.
